About us

Hi y'all! I'm Alci — a Colombian architect and designer based in Austin, Texas. I graduated from Universidad San Buenaventura in Cali, Colombia in 2015, and since then I've been focused on creating thoughtful and functional spaces through residential and commercial projects.

Lately, I've been expanding my expertise by studying Landscape Design at Austin Community College, which has allowed me to dive deeper into sustainable outdoor solutions, native Texas plants, and creative garden layouts.

Over the years, my work has always been deeply rooted in aesthetics, purpose, and the emotional experience of space. One constant throughout my journey has been my love for plants and the powerful role they play in architecture and design. This passion gradually evolved into a focused interest in **landscape design**, leading me to integrate natural elements into my projects in a more intentional and immersive way.

Today, I offer a unique blend of services as an **Architect designer, space planner, landscape designer** and **plant broker**, helping clients source beautiful, healthy plants and designing outdoor environments that reflect their style and needs. From minimalist patios and lush backyard gardens to green-focused commercial spaces, I bring together form, function, and nature.

My goal is to help people reconnect with their environments by making green design more personal, accessible, and inspiring. Whether you're looking to enhance your home, upgrade your business frontage, or create a custom landscape from scratch. I'm here to help bring your vision to life.

Let's design something that grows with you.

Local Native Plant Delivery for Central Texas.

Native plants naturally conserve water, improve soil health, attract birds and pollinators, and minimize the need for fertilizers and harmful chemicals making them a smart and sustainable choice for any landscape.

✦ NATIVE PLANTS AND DESIGN ✦
AUSTIN, TX.

Whether you're planting a native garden or just adding a few new favorites to your yard, AEP makes it easy, local, and stress-free.

Ready to grow something great? 🌱

Services and Pricing.

Say goodbye to muddy car rides and complicated plant sourcing. With our delivery services in AEP Architecture, getting beautiful, healthy native plants delivered straight to your door has never been easier. Choose from a wide selection of locally grown trees, shrubs, and plants perfect for your weekend project or long-term landscaping goals.

We're passionate about empowering homeowners and small businesses to take control of their outdoor spaces. Whether you're designing a backyard oasis or upgrading your commercial frontage, we're here to support your vision with quality, convenience, and expert care.

All of our plants are sustainably grown in the Austin area, ensuring they're well-adapted to the local climate and soil. We proudly serve DIY enthusiasts who love the satisfaction of building something beautiful and green with their own hands.

Delivery Details:

- **Flat Rate:** \$25 for all deliveries within Austin city limits.
- Outside Austin? No problem—custom delivery pricing is available.
- **Schedule:** Deliveries are made Monday to Saturday, usually within 48 hours of your order.
